DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-8, drawn to semiconductor integrated circuit device, classified in class 257, subclass 516.
 - II. Claims 9-12, drawn to a method of forming integrated circuit device, classified in class 438, subclass 100+.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions II and I are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the product as claimed can be made by another materially different process, for example in claim 9, instead of forming in the order of, a first metal layer, a first dielectric layer, a second metal layer, a second dielectric layer, a third metal layer, and a cap layer over the substrate and etching the cap layer, the third metal layer, the second dielectric layer, the second metal layer, and the first dielectric layer to form an upper capacitor structure, forming two spaced apart in the order of a first dielectric layer, a second metal layer, a second dielectric layer, a third metal layer, and a cap layer over a first metal layer.

Art Unit: 2811

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
